Education

Masters of Science

2021 – 2022

Jahangirnagar University

- Department of Computer Science & Engineering
- Result: CGPA 3.78 out of 4.00

Bachelor of Science

2017 – 2021

Daffodil International University

- Department of Computer Science & Engineering
- Result: CGPA 3.90 out of 4.00

Experiences

Junior Programmer

January 2024 – Present

GIS-based Development for Rural Road Master Plan under RCIP, LGED Funded by ADB

Manages design, queries, backups, and data security

Web Developer

December 2021 – December 2023

Third Party ME of Overall Project Implementation

Sheladia USA in association with BETS

Designs, codes, tests, and maintains website

Technical Support Engineer

September – November 2021

Efoli

Fixes issues and ensures system functionality

Teaching Assistant

September 2019 – April 2020

Daffodil International University

Department of Computer Science and Engineering
Responsibility of guiding students in various courses

Projects

Title: Facial Expression Recognition System

Duration: May'22 – Dec'22

Team size: 01

Summary: A Python-based Facial Expression Recognition System using a hybrid model combining HaarCascade and Deep Convolutional Neural Networks (DCNN), along with LBP for histogram analysis, achieving improved accuracy and faster execution time.

Title: Inventory Management System

Duration: Jan'20 – Feb'21

Team size: 03

Summary: Developed an Inventory Management System using PHP and MySQL for the backend, with jQuery for dynamic data display and operations. The UI was designed with HTML, CSS, and Bootstrap, ensuring a secure application through PHP for data handling.

Title: Tour Mate

Duration: Apr'19 – Sep'19

Team size: 02

Summary: An Android app for trip planning and navigation, featuring a user-friendly interface and real-time data for an enhanced travel experience.

Title: KID's Online Book

Duration: Sep'18 – Dec'18

Team size: 02

Summary: I developed "KID's ONLINE BOOK," an interactive application based on assembly language that provides a user-friendly platform for children to access and read digital books. The project emphasizes simplicity and engagement to enhance the reading experience.

Publications

Awards & Achievements

- 2nd Runner Up as a team of DESTELLOS in Jobcon Logo Design Competition 2019.
- Certified from DIU CPC in the training program "Graphics Design", Dec'19.
- Recipient of 30% waiver for excellence in results in the Bachelor's Degree program at DIU.
- Certified from BITM (BASIS Institute of Technology and Management) in the training program "Mobile App Development"
- Winner of public speaking session in IEEE Day 2018 Program.
- Scholarship on Primary School Certificate, 2008, Bangladesh Education Board.
- Awards for obtaining GPA 5 in S.S.C examination from leading daily "Prothom Alo".
- Awarded for writing contribution of the book "Art of living" published in Daffodil International University HRDI.

Workshops and Seminars

- Seminar on 'Industrial Attachment and Future Prospects of Engineering Students' hosted by IEEE DIU Student Branch 2019.
- A three-day brain boot camp "+Mindshift: An Empathy Camp", March'19.
- Seminar on 'Big Data Analytics in Digital Economy: A New Paradigm of Innovation and Growth' hosted by DIU.
- Session on 'Technical Session on CLI and Shell' hosted by DIU CPC.
- Session on 'Communication Camp 2.0' hosted by IEEE North South University WIE.
- Seminar on 'Supply Chain Management' hosted by DIU HRDI.
- Online Session on 'start your journey to be a programmer or a successful technology professional' hosted by DIU.

Extracurricular activities

- Volunteer at "ALOKITO SHISHU" for supporting "Stop violence against women and children" campaign.
- Launching "Buddhi Diye Buddhi Aki" program in EMK center with the contribution of primary school's student under government.
- Volunteer in "Growth Mindset Campaign" in DIU.
- Writing contributor for Publishing 'Art of Living' work book in Daffodil International University.
- Working with underprivileged children through "Teach for Bangladesh".
- Member of IEEE Computer Society Bangladesh Chapter.
- Member of DIU CPC (Computer and Programming Club)

Technical Skills

- Language: Python, Javascript
- Web Technologies: HTML, CSS, PHP, Bootstrap
- Database: MySQL
- Graphics Software: Adobe Illustrator

Hobbies & Interests
